ABOUT THE INTERNSHIP

Hi! I am an undergraduate student at UC San Diego developing a website that empowers students with disabilities as they transition to the industry sector. I am looking for one or two people from the community of students with disabilities to join me on this project for the Summer of 2020 starting in June (ends in September but can be extended throughout the school year if interested in being on the team long-term). It would be a remote internship with a $1,000 stipend.

EXPERIENCE

- Proficient in HTML
- Knowledge of GitHub
- User Experience and User Interface (UX/UI) knowledge preferred, but not required

EDUCATION

- At high school or college level

CONTACT

Please email me if you’re interested (resume optional)
